Happy Easter

Starter Plants

By now your starter plants are looking pretty good. Maybe not getting quite enough sunlight and are getting a little spindly. Take an Oscillating fan and give them a little breeze. This will strengthen the stock and make your plants a lot sturdier. Good luck.

GARDEN COURT – North Peace Housing's self contained, independent living apartments, are up and running. We sincerely hope all our new residents enjoy their brand new home. Suites are still available @ 624-3919 Located west of the Peace River Hospital

I'm hop, hop,
hoppin' your way.
to wish you a very
eggs-tra special day!
But you had better
get yourself in line,
because this chocolate
is tasting extra fine!

The History of Easter

Easter the principle festival of the Christian year celebrates the Resurrection of Jesus Christ on the third day after his crucifixion. The origins of Easter date to the beginning of Christianity, and it is probably the oldest Christian observance. Where did the colored eggs, cute little bunnies, baby chicks, leg and lilies come from? They are all symbols of rebirth and the lamb was a traditional religious sacrifice. Easter falls in the spring, the yearly time of renewal, when the earth renews itself after a long, cold winter. The season of the growing sun and new birth. The Easter bunny arose originally as a symbol of fertility. It's as if the Almighty had chosen this glorious season for the death, resurrection and exaltation of Jesus Christ, the son of God.

Maintenance Reminder

It is time to start opening your window and getting some much needed fresh air. Make sure that you open your window in the heat of the day and make sure you close your window at night or at least mostly closed. The cold from the fresh air goes straight down on the register, calling for heat. Defeating the purpose of having your window open. If the weather is real cold it WILL actually freeze the lines. Enjoy the fresh air, a well deserved treat.
